

PERFORMANCE ANTENNAS

www.airwavemarine.com

INNOVATIVE
DESIGN

American Technology

AirWave Marine has been proudly designing and producing telecom equipment in Miami, FL since 1988. Today, those years of experience enable us to build the highest quality and most durable line of marine antennas available.

ONE Antenna

Optimised For Superior FM & AM Reception

High Performance

Designed and built with the highest quality components

ProConnect Included

Running your cables is easy thanks to our ProConnect System

Installations and upgrades are now much faster and easier with the pre-installed AirWave ProConnect small modular connectors, and snap-together rubber weather protection.

American-made, High-Quality, Factory-direct means excellent product support, warranty and prices. All backed by a 30 year manufacturer in south Florida, the center of the boating World.

THE BENEFITS

- Highest Performance AM/FM Possible
- 30% Thicker Fiberglass Tubes. High Gloss Painted
- All Brass, Copper & Stainless Internal Elements
- Fast, Easier Installation Or Removal
- ProConnect System. No Crimp Or Solder
- Gold-Plated Connectors
- Dual Shield Matched 93 Ohm Cable
- Made in the U.S.A With US + Imported Parts
- Sleek, All white Appearance.
- Premium Nylon Machined, Molded Ferrule

Simple Order Process

Ready To Connect

Simply plug the antenna into it and it to the radios

American-made, High-Quality, Factory-direct means excellent product support, warranty and prices. All backed by a 30 year manufacturer in south Florida, the center of the boating World.

The dual band VHF & AM/FM splitter allows for the use of just one antenna for both radio frequencies. Our state of the art passive filter design uses the single antenna on the mount for optimal performance on both frequencies.

Save space, time and money with our simple to use, plug and play solution for a dual band marine antenna.

THE BENEFITS

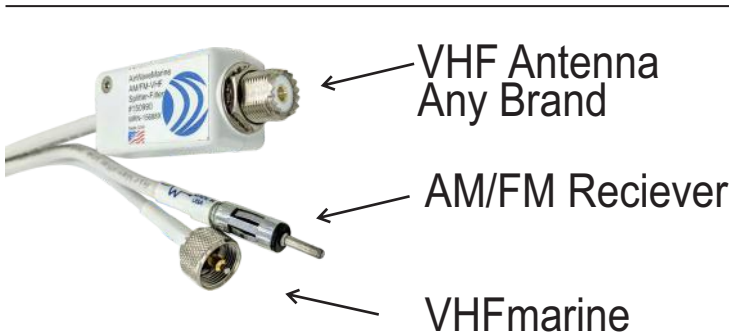

- One Antenna: For The VHF & The Stereo Radio
- Add AM/FM Reception To Any VHF Antenna
- Modern, Small, Lightweight, Fits Anywhere
- Connects To Antenna Cable's PL-259
- Plugs Into The VHF Marine And The AM/FM Radio
- Weatherproof For Years Of Service
- Advanced Micro-Strip Design
- Dual Shield High Grade American Cable
- Made in the U.S.A With US + Imported Parts
- High Performance. Beats The Competition
